Keenan Red-Tailed Hawk Wine Futures

The latest iteration of our futures program sees a return to a classic blend that has been a multi-vintage standout in our reserve cabernet programs of the past. A heavy concentration of 95% Keenan Estate Cabernet Sauvignon with an intense aromatic lift provided by a topper of 5% Keenan Estate Cabernet Franc brings the band back together yet again to demonstrate the important duality of the Keenan style.

A wine that is at once awash with concentrated fruit and savory tension while also showing a tremendous sense of lift and florality. This wine is a pure embodiment of a descriptor we often use to describe all of our wine from the estate: fresh. This is a cabernet that excites your palate, enhances food, and brings you yet closer to god. It is bright. It is lifted. It's damn fresh.

Reserve yours now before it's too late.
